### **Ensuring Confidentiality of Individual Student Data**

The Delaware Department of Education (DDOE) values data transparency as well as security. DDOE complies with all federal and state data standards and laws, including the [Family Educational Rights and Privacy Act \(FERPA\)](#).

Individuals and organizations with access to DDOE data must have systems in place to ensure security, sign a memorandum of understanding and align their work with DDOE data security policies.

## **Executive Summary**

The Delaware Department of Education (DDOE) report on graduation is from data collected annually from all public schools that include grade 12. Cohort graduation rates are calculated as prescribed by the National Center for Educational Statistics (NCES), which provides data to the federal reporting system. In accordance with NCES requirements, DDOE uses the four-year adjusted cohort graduation rate, which measures the number and percentage of cohort members who earned a regular high school diploma within four years or less. The cohort is defined as the number of first-time 9th graders followed for four years plus students who transfer in minus students who transfer out, emigrate or are deceased during that time period. The report also provides five-year and six-year graduation rates.

This report does not contain data reflecting private, parochial or home school students in Delaware. The State does gather information from families that home school their children and from private schools, but only does so to verify the transfer of a student from public to private and home schools.

## **Highlights**

### ***Four-Year Adjusted Cohort***

- Last year, out of 10,727 students in the class of 2021, 9,335 students graduated with a regular diploma.
- The statewide graduation rate for the class of 2021 was 87.02%. This is a slight decrease from the class of 2020, which had a graduation rate of 87.70%.

### ***Five-Year and Six-Year Adjusted Cohort***

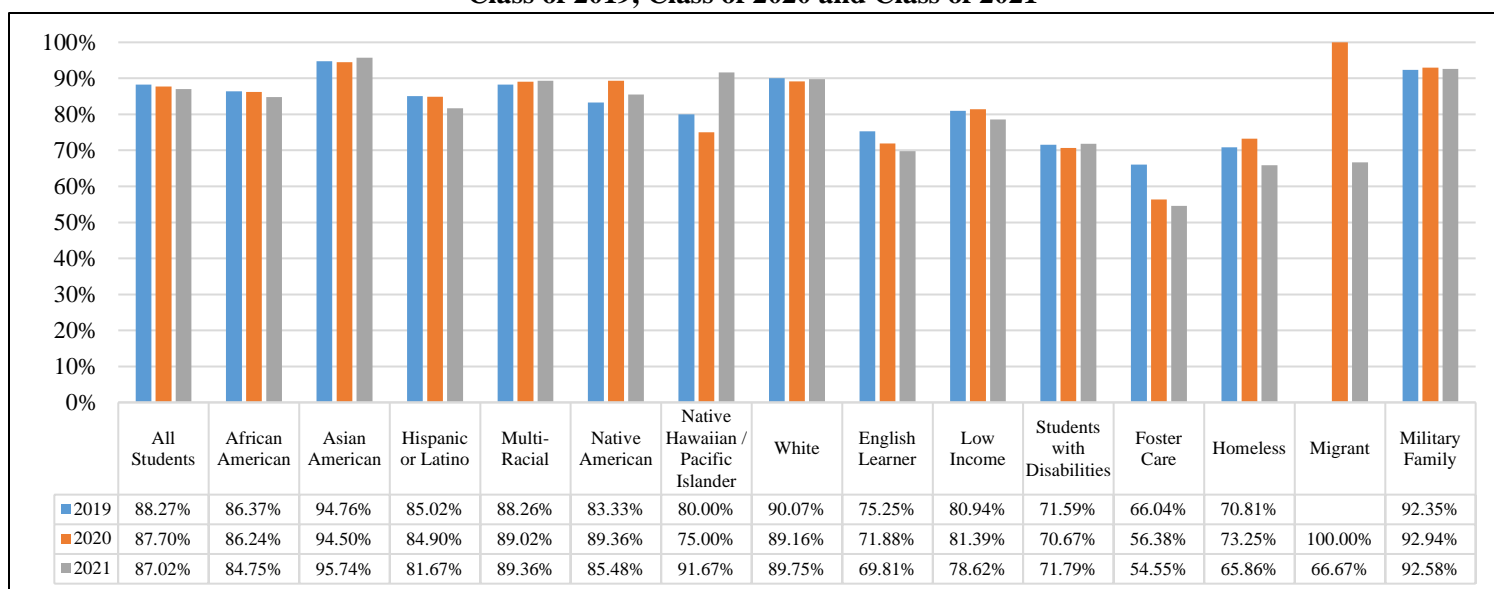

- The graduation rate for the Class of 2020 was 87.70% at the end of four years, and 88.42% at the end of five years, increasing the graduating class by 78 students.
- The graduation rate for the Class of 2019 was 88.27% at the end of four years, 88.65% at the end of five years and 88.70% at the end of six years, increasing the graduating class by 39 students in the fifth year and 6 students in the sixth year.

### Graduation Definitions:

- **Elementary and Secondary Education Act (ESEA) Four-Year Adjusted Graduation Rate:** The number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class.
- **Cohort Adjustment:** The cohort is adjusted by adding any students transferring into the cohort and by subtracting any students who transfer out, emigrate to another country, or are deceased during the years covered by that cohort's rate calculation.
- **Transfer Into:** A transfer into a cohort occurs when a student enrolls after the beginning of the entering cohort's first year in high school, up to and including in grade 12. A transfer in may be from another public school in Delaware, a nonpublic school in Delaware or a student transferring in from another state or country.
- **Transfer Out:** A transfer out of a cohort occurs when a student leaves a Delaware public school and enrolls in another public or nonpublic school within Delaware, out of state or in an educational program that culminates in the award of a regular high school diploma. Transfers out must have appropriate documentation; otherwise the student shall be considered a drop out.
- **Regular High School Diploma:** The standard high school diploma awarded to students that is fully aligned with the State's academic content standards and does not include a GED credential, Diploma of Alternate Achievement Standards, Certificate of Performance or any alternative award.
