Text Support for HQIM’s are Live in Sora

As you are aware, the goal of this collection is to support schools with literacy acceleration. Your OverDrive team has researched all 15 HQIM’s and have added the over 1600 required & recommended titles which have been adopted. These titles are all available in simultaneous access, meaning your students will not need to wait for their copy. In addition, Sora is also packed full of all their favorites. Our goal is to keep them reading and coming back for more. Most students find Sora on their own via their student dashboards, others may need a push. When you are getting ready to read a novel, check for the novel in Sora. Share a link to the novel with your students or create a QR code to the novel. Engage your teachers, remind them to use Sora and share Sora with their students.
Here is a quick video that will walk you through how to share more with your students.

Passcode: G5^jf?Yh

Note: We have included the titles that are available in digital. If you are looking for a title and do not see it in Sora, please click the “Request a Title” link below. We will work to get the title added ASAP.

Sora Tips & Tricks – Learn more how to EXPLORE!

Let’s learn to search for books in Sora.

On the EXPLORE tab, click “Search for a book” field Here you can search for a book by title, author, series, or even subject.

By clicking the “More options” button, you can additionally search by format, language, reading level and more.
You can check the **Read-along ebooks** box to only search for Read-along titles in the collection. Read-alongs are titles that have narration so you can follow along while you read.

<table>

Once you choose search, titles that meet your criteria will populate. You can click or tap a circled word at the top of the screen to narrow your results. Options can include formats (like **ebooks**) and subjects (like **History**).

Additionally, you can click refine, then:

- Select **Show available books only** to see only books you can borrow right away.
- Select **Sort by** to choose a sort option.
- Select **Language**, **Audience**, or **Compatibility** to add filters.
- Select **Search within results** to search for a specific title, author, or keyword.
Look Up! The James Webb Space Telescope and more

NASA’s [James Webb Space Telescope](https://www.nasa.gov/), launched on Christmas Day 2021 and represents a new dawn of space exploration. The telescope is 100 times more sensitive than any telescope before it. This telescope will literally view history and the formation of the galaxies and stars that exist today. This month we’ve curated Sora collections to capture some of that excitement.

**Look Up!** Celebrates all things celestial with books on space, the stars, planets, and dozens of themed titles. Here’s some of what students will find: *Classified: The Secret Career of Mary Golda Ross, a Cherokee Aerospace Engineer*, *Moondust: In Search of the Men Who Fell to Earth*, and much more!

You can find more Look Up! titles directly in Sora [HERE](https://www.sora.com/)

Make sure you check out [Tomorrows and Yesterdays](https://www.sora.com/), a related collection that features futuristic titles and books about time travel!

**Data deep dive: who’s reading & top 10**

Did you know that students in Delaware have borrowed more than 203,000 books since your statewide Sora platform was activated? The latest data is below, but you also have access to this data for your district. If you would like to learn how to access your own usage data please reach out to Jody or Victoria.
The below charts reflect circulation data since inception date (May 17, 2021) through December 31, 2021:

- Total # of Checkouts: **203,776**
- Total # of hours reading: **71,231**

**Delaware Accelerate Learning**
